

WE NEED TO TAKE BACK OUR RIGHTS.

The rights and freedoms of North Carolinians are being taken away. North Carolina is under major attack. Now that the far right wing has gained supermajorities in both chambers of the State Legislature, they are passing far reaching legislation that will impact our people for generations to come. They are attacking our bodies, our schools, our health, our environment, our rights, our communities, our income, our jobs, our democracy and every aspect of our lives.
